

PowerSchool Services Customer Education

PROFESSIONAL DEVELOPMENT THAT
SUPPORTS ONGOING EDUCATOR GROWTH

Ensure widespread adoption of your PowerSchool technology with **advanced product training and professional development** that fits your budget and schedule.

Advanced Training to Ensure Quick Adoption

Get the most out of PowerSchool with **advanced, hands-on training** available in-person and virtually; live or on-demand. Caters to new, intermediate, and advanced users.

User Events with Like-Minded Educators

Learn and network with your peers at our premier regional and national user conferences, including **PowerSchool University**, offered four times a year. Earn product certifications, CEUs, and choose from 65+ courses organized by topic and level of experience. Includes four days of intensive training across the United States.

Flexible Training to Fit Your Budget

Access professional development and product training content **on-demand, available 24/7**. Includes self-paced courses, short videos, and learning paths tailored to job roles. Answer questions, get product refreshers, and practice with hands-on tutorials.

Professional Development to Continue Growth

Provide your teachers with opportunities to **continue their education** in areas such as improving student outcomes, securing student data, driving improvements with reliable data, and more. Options include: teacher and leadership coaching, teacher mentoring, job-embedded teacher coaching, and train the trainer.

“The PowerSchool coaches **trained and supported our teachers** to address weak areas in a faster, more targeted manner. Moreover, it allows for the district to provide students with a **supportive, data-driven plan for their individual needs** which ultimately produces **strong academic success!**”

CASS HADDOCK

District Assessment and Accountability Supervisor
Houston County Schools, AL

Continued Training

Attend instructor-led training sessions remotely or at your district office to get all staff on board. Access on-demand training videos to address ongoing training needs for new employees or refresher courses for staff as you prepare for a new school year.

Options include:

- Self-paced professional development courses organized into role-based learning paths
- Remote, regional, and onsite training sessions

Certifications

Our certification programs equip educators with the knowledge and confidence they need to train teachers in their districts. Certifications requires participants to pass an assessment. Available for PowerSchool SIS in the following areas: Initial Product Training, Enterprise Reporting, PTP Gradebook, District Management, and Master Scheduling.

PowerSchool University

Offered four times a year around the United States, educators can enhance their knowledge and skills, earn product certifications, take professional development and product training courses, and network with peers.

Choose courses defined by the following roles:

- Curriculum Specialists
- Technology Experts
- Admin/Office Personnel

Achievement Practices

Boost school and district student achievement with high-impact coaching focused on building educator efficacy. Coaches tailor sessions to strategies for standards-based instruction, giving teachers the tools necessary to increase student achievement immediately.

Get coaching in the following areas:

- Accountability mandates and requirements
- Technology-infused learning
- Harnessing data in education
