

Financials

The heart of district operations and processes just got easier

When it comes to K-12 accounting and purchasing processes, time is of the essence. In today's high-pressure K-12 financial management world, school districts need an intuitive and easy way of managing daily fiscal operations so that concentration can go back into making informed decisions.

PowerSchool Financials puts the focus on at-a-glance insights so administrators can work smarter, not harder, to help district leaders make better decisions based on actionable, relevant district information.

Redefining the K-12 Industry Standard

✓ Centralized Processes

A Fully-Integrated General Ledger

Improve the efficiency of business operations with templates for journal entries, easy reversals, ability to work in multiple periods, drill downs, and the ability to attach and view documents associated with transactions and/or vendor payments.

✓ Enhanced Productivity

The Tools Needed to Improve K-12 Fiscal Management

From budgeting through accounts payable, eFinancePLUS and BusinessPLUS both make the fiscal management experience seamless. Work flow processes guide through day-to-day financial functions including account management, purchase orders, and payments; all while displaying the summary or detailed information needed to make informed financial decisions at a glance.
