mc·oecn Partnership

MC·OECN's partnership with PowerSchool provides access to eFinancePLUS to help Ohio districts reach their goals.

| RECRUITING & PROFESSIONAL DEVELOPMENT	BUDGETING & PREPARATION	GENERAL LEDGER	PAYROLL	PROJECTIONS	ACCOUNTS PAYABLE & PURCHASING

PowerSchool's commitment to helping Ohio districts reach their goals starts with a solution that unifies district operations. eFinancePLUS is designed to save districts' time and money, empower employees, and guide leaders to make key decisions.

Unifying Ohio district and ITC operations

PowerSchool provides ITCs and districts with a true partnership by delivering Professional Services tailored to unify the operations of Ohio ITCs and districts. By building a statewide cohort of users and colleagues, PowerSchool helps MCOECN:

- Reduce acquisition costs
- Reduce implementation costs
- Reduce technology infrastructure operating costs
- Focus support resources on end-user software use and adoption
- Understand and optimize shared platform migration
- Build "communities of practice"

A partner in the successful management of finance and human resources

Executive Information Right at Your Fingertips

Payroll and Recruitment All in One Place

Streamlined Accounting and Procurement from Request to Payment

Integrated Reporting for Decision Making & District Strategy Development

Leverage eFinancePLUS to drive efficiency and improve processes

eFinancePLUS puts the focus on at-a-glance insights so administrators can work smarter, not harder.

The benefits of an implementation team

eFinancePLUS is accompanied by an equally robust and comprehensive Professional Services solution that is designed specifically for OH ITCs and districts.

State Specific Tools

- Ohio training plan template and tools
- Training agendas, handouts, and supplements
- Ohio-specific eLearning and seminars
- Configuration and set up plans
- Conversion toolkit
- Train the trainer education and certifications

Shared Reports & Collaboration

- Financial Report Writer templates
- Collaborative learning sessions
- Shared eLearning content

State User Group

- An Ohio user group, specific to MCOECN, ITC(s), and constituent districts

Integration

- Integration with the State or third-parties is made feasible by adopting a standardized implementation model and configuration
- Customization can be developed once and deployed state-wide

An implementation plan aligned to the district or ITC's needs

✓ **Plan** starting with a planning meeting that focuses on a product overview and identifying the goals and scope of the project.

✓ **Prepare** major configuration decisions, an orientation on conversion, and phase 1 of training, focused on configuration.

✓ **Execute** the data conversions and run training, covering daily and period processes.

✓ **Confirm** conversions, test pilot parallels and work with your ITC or district to continue verification and testing.

✓ **Go Live** providing end-user training, run through a final pass of data conversions, and provide go-live support.
