

Special California

PROFESSIONAL SERVICES

Convenient. Flexible. Engaging.

PowerSchool offers best-in-class project planning and product training

Implementation Methodology

PowerSchool's expert **IMPLEMENTATION PROJECT MANAGERS** work with you to configure district and school items that:

- Satisfy California compliance requirements
- Focus on key PowerSchool configuration and data items

PowerSchool's online **IMPLEMENTATION PROJECT MANAGERS:**

- Will keep the project on track and organized
- Are well versed in California state-based reporting
- Can provide additional consulting to help with first year adoption and preparing for compliance reporting
- Use enhanced data tools with California compliance-specific data templates to prepare, import, and validate key SIS data
