

# Partnering to Create College, Career, and Life Readiness Success for Florida's Student

## Current Landscape in Florida

*"A major goal of Florida's K-20 education system is to improve employment and earnings outcomes for all students."<sup>1</sup>*

There are over two million K-12 students in the state of Florida.<sup>2</sup> Schools and districts are tasked with meeting the needs of its diverse population and preparing them for postsecondary success.

According to "Measuring the Economic Success of Florida's Graduates", higher education credentials are correlated with earnings upon program completion.<sup>3</sup> Strengthening the ties between K-12 and postsecondary schooling is key to ensuring Florida's students are ready for college and successful in their careers.

## Naviance for Florida's Students

To help students develop the skills and provide the right support, using insights can drive the desired student outcomes and postsecondary success. For more than 16 years, Naviance has been the trusted College, Career, and Life Readiness (CCLR) platform for over 340,000 students in Florida.

Naviance is proud to partner with many Florida school districts including:

- Broward County Public Schools
- Columbia County School District
- Pinellas County Schools
- Sarasota County Schools

Naviance is a comprehensive college, career, and life readiness (CCLR) solution that improves student success and maximizes counselor impact by helping to align student strengths and interests with their coursework and postsecondary goals.

## Supporting House Bill 7071 (2019)

House Bill 7071 (HB7071) promotes career education and readiness opportunities for students in Florida's public schools. HB7071 requires strengthening of transition pathways to college and career opportunities and establishment of alignment between education and workforce needs.<sup>4</sup>

### Discover

Naviance allows students to identify their strengths and interests and align them to their postsecondary plans through features such as **Gallup's Clifton StrengthsExplorer**, **AchieveWorks®**, **RoadtripNation**, and **SuperMatch®**.

### Develop

**The College, Career and Life Readiness Framework®** provides a blueprint to prepare middle and high school students for success after graduation. This research-backed framework outlines six competencies that students in grades 6-12 must achieve to become college, career and life ready.

**Naviance Curriculum** addresses the college readiness standards outlined by the U.S. Department of Education including knowledge of the college process, academic preparedness, the financial aid process, and guidance through the college application process. Naviance Curriculum is aligned to ASCA and includes social emotional learning lessons aligned to CASEL 5.

### Plan

Students need to see how what they're doing today leads to success tomorrow. **Naviance Course Planner** allows students to develop an individual graduation plan that also provides an opportunity to explore various career pathway programs with identified plans of studies aligned to their postsecondary goals, interests, and abilities.

### Track

Educators can easily track student progress and support their college application process all in one platform. The **Success Planner** gives educators visibility into where different students are through their journey. Naviance's Success Planner tool enables each student to have a truly personalized plan of action that provides an effective way for counselors, teachers, and parents to monitor and coach students toward achieving their goals. Educators can collect information such as student goals, college interests, and post-graduation plans through **Surveys**. This allows educators to provide a personalized experience for students and save plenty of time along the way.

### Measure

**Naviance Insights Premium** enables schools to identify the key variables that influence students' college outcomes to focus on what works. By identifying programs and interventions that lead to measurable college outcomes, counselors and administrators can make data-driven decisions to meet the measures that matter most to them.

**Naviance Reporting** allows educators to create custom tasks, track student progress, and identify activities that lead to student success.

**Naviance Alumni Tracker** allows schools to subscribe to National Student Clearinghouse® data within Naviance to discover post graduate success.

## How Naviance Supports Florida House Bill 7071 (2019)

	Research-based assessments (127-129)	Emphasize the importance of entrepreneurship and employability skills (132-133)	Methodology must use authentic projects, problems, and activities (235-238)	Include graduation requirements and college entrance requirements (135-140)	Outline standard high school diploma designations (247-286)	Completed personalized academic and career plan (126-132)	Participation in career education courses (208-211)
