PowerSchool

The labels around the circle read:
- Empowering Teachers
- Driving Student Growth
- Increasing Student and Parent Engagement
- Powering School Operations

As an educator, you're in the business of making a difference in students' lives, and your most valuable asset is time. And no matter what, there never seems to be enough of it.

Lesson planning. Grading. Communicating with parents. Reporting progress and compliance. There are too many tasks that take teachers away from students. Too many distractors. Too many hurdles. Too much noise.

Educators do not choose this profession for long hours and daunting tasks but instead to make a difference in the world. To inspire, encourage, motivate, be a role model, develop community, provide a safe haven, and help students reach their full potential.

To meet this challenge, educators need to be empowered with technology that:

- Streamlines processes and gives back time to be spent with students
- Provides tools to improve instruction and elevate learning
- Easily delivers the data needed for reporting and compliance
- Facilitates and improves communication between teachers, students, and parents

Combining the right tools into one unified system gives back precious time in the classroom and administrative offices.

PowerSchool is revolutionizing the classroom by providing a unified education technology solution in one seamless application.

At the Consolidated School District of New Britain, Connecticut, kindergartners had a 30% chronic absenteeism rate.

Using PowerSchool's data tools, administrators were able to cut absenteeism to 17% in just one year, resulting in improved literacy.

More than **80%** of teachers said students need to be engaged in mobile learning outside of school to be successful.
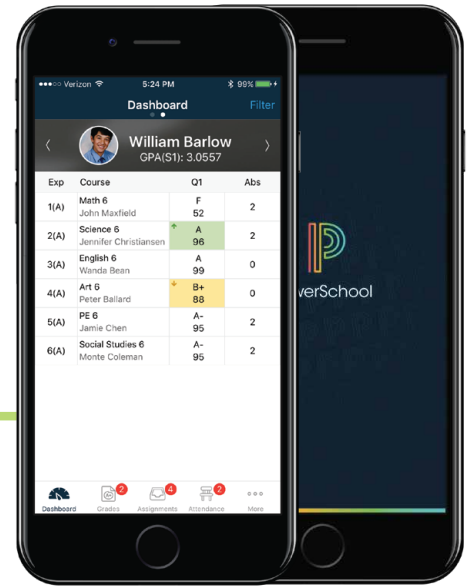

"I think the mobile app is genius. What I love about it is it helps my sons take responsibility for their learning. It helps them take ownership."

– Tony Newman, Assistant Superintendent, Ramona USD

22%

76%
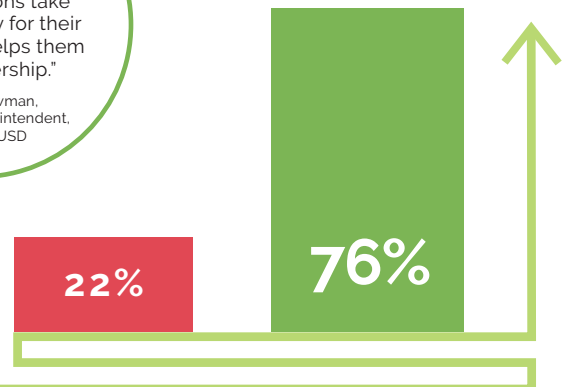

At Jane Bryan Elementary (Hampton, VA), students only scored 22% on the 2012 spring mathematics state assessment.

After implementing an instructional improvement strategy and PowerSchool's formative assessment solution, the school increased math scores by up to 76%.

"Thanks to PowerSchool, more freshmen are earning passing grades in English, Mathematics and Science. In 2008, 29% of freshmen had at least one F. In 2015, it's now 19%. PowerSchool helped us achieve a 10% reduction."

"Parents are a lot more informed and engaged, which has made our students take more responsibility for their grades... Now they study more, turn in their assignments on time and can plan how to increase their grade by the end of the semester."

"Factoring in the cost of labor resources, paper, and ink, our PowerSchool Registration solution saves us an average of $82,000 per year."

"In my 30 years of working with business systems...this was the first time I have experienced a company involve 150+ schools from different states in the development of a solution to address a new regulatory requirement and allow the districts to have continuous input into the process. "
