PowerSchool
Learning

PowerSchool Learning lets educators spend more time teaching and less time managing assignments, tracking down homework, and grading papers. As part of the unified classroom experience, the cloud-based learning management and classroom collaboration solution empowers teachers with real-time student interaction inside and outside the classroom bringing in more social and collaborative learning. Teachers can quickly create and deliver rich engaging content with embedded lessons, electronically collect, annotate, and grade work, and easily collaborate and share with other educators.

The PowerSchool Learning difference

Our flexible drag and drop platform makes it easy for all educators to create unique learning spaces that meet the diverse needs of K-12. Students learn within a highly visual and meaningful context.

Facilitate 21st century learning

WikiProjects give students choices in how to demonstrate their learning using a suite of tools to create authentic projects. Watch them become content creators, problem solvers, peer collaborators, and web publishers.
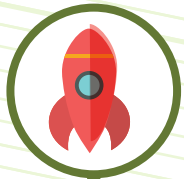

Connect your ecosystem

From integrations with your SIS to Google Apps for Education, to a library full of embeddable apps, we keep your data safe and connected, becoming your portal to a wider world of learning.

Make management easier

Power teaching and learning

Support decisions with data

Powerful analytics give at-a-glance views and let you drill down for more info. You have access to highly customizable reports, too!

Simplify administration

Our admin panel makes it easy to manage users and settings, and monitor both their usage and their connections.

Get the best support

Our award-winning support team gives K-12 educators the same personal attention that they give their students.

Engage & motivate students

Give all students a voice and inspire them to learn with Polls, Discussions, WikiProjects, Embed the Web, Badges, and ePortfolios.

Monitor & assess learning

From formative to summative to authentic, from traditional to standards-based, we've got K-12 assessment needs covered.

Go mobile

Our iOS and Windows 8 apps make beautiful mobile companions to keep students connected on the go.
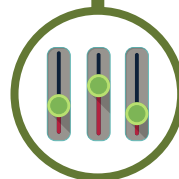

Collaborate with peers

Use our Library and other collaborative tools to easily share content, learn from peers, and co-teach with ease.

About PowerSchool

PowerSchool is the #1 leading education technology platform for K-12, serving more than 20 million students, 36 million parents, and 57 million users in over 70 countries around the world. We provide the industry's first Unified Classroom experience with best-in-class, secure, and compliant online solutions, including registration and school choice, student information systems, learning management and classroom collaboration, assessment, analytics, and special education management. We empower teachers and drive student growth through innovative digital classroom capabilities, and we engage families through real-time communications across any device.
