

# Performance Matters

POWERSCHOOL STARTER ITEM BANK

The PowerSchool Starter Item Bank is a free comprehensive tool that enables educators to create assessments and track student progress quickly. Its vast collection of pre-made items **streamlines the assessment process and helps educators focus on what really matters—student success.**

## Standard Aligned Items

Save time and effort creating assessments by utilizing ready-made questions aligned with learning objectives and state standards.

## Build Meaningful Assessments

Leverage the Starter Item Bank to build formative assessments and practice comprehensive assessments that can inform instruction while saving your team's time.

## Content You Can Count On

Provide a reliable and valid measure of students' cognitive complexity across a wide range of disciplines with access to items carefully created and aligned to Webb's Depth of Knowledge.

## Personalize Instruction

Increase engagement and academic success by tailoring the learning experience to individual needs based on immediate access to assessment results.

## Simplify Gap Analysis

Pinpoint specific areas of remediation and develop targeted interventions using real-time reporting and access to student results by standard.

## Increase Data Visibility

Get clearer visibility of how assessment results are related to additional student data, such as grades, attendance, and behavior.
