

PowerSchool AI

HELPING EDUCATORS WORLDWIDE TO
LEVERAGE THE POWER OF AI

Welcome to the next chapter of education powered by AI (Artificial Intelligence)—where cutting-edge technology meets the boundless potential of learning. PowerSchool aims to use AI to help every student achieve their maximum potential. This vision involves transforming how teachers teach and students learn responsibly and ethically.

PowerSchool leverages the power of AI in user's most common workflows. Now, educators, students, administrators, and parents can tap into the limitless potential of personalised teaching and learning, where experiences cater to each student's unique needs, strengths, and preferences.

Meet Students Where They Are

Provide teachers with intelligent and individualised recommendations to improve student engagement and support the needs of each student at scale.

Ensure a Secure and Trusted System

PowerSchool AI uses data already protected and secured in PowerSchool systems, trusted by IT for nearly three decades.

Enhance Effectiveness with Time-Saving Tools

Automate assessments, assignments, and instructional content generation based on Lexile levels, student mastery, and student voice and choice. Save teachers time while providing differentiated instruction for each student.

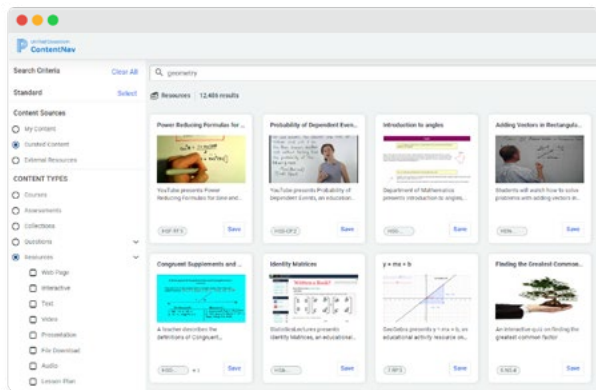

Technology can help teachers reallocate **20-30%** of their time toward activities that support student learning.¹

With a comprehensive program to protect the security and integrity of our applications—including robust cloud security, security by design, third-party penetration testing, and a responsible disclosure program—all validated by independent third-party auditors, [PowerSchool demonstrates our commitment to protecting our customer's data.](#)

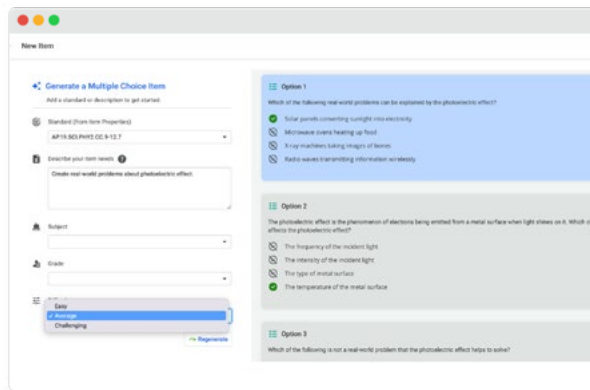

Check out these PowerSchool products that incorporate AI tools to help positively impact education.

PowerSchool ContentNav

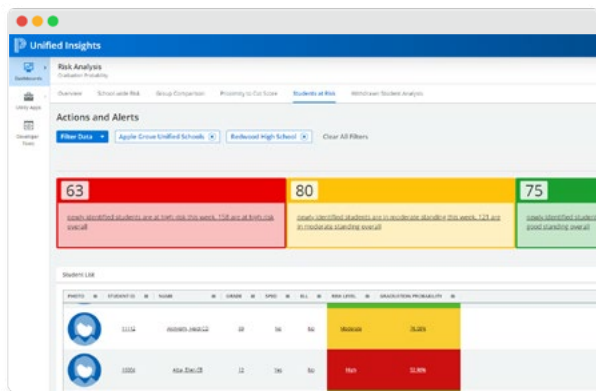

Give your educators easy access to the most relevant materials, curated publisher resources, open education resources, and generative AI content aligned to the curriculum and learning objectives of their courses.

PowerSchool Performance Matters

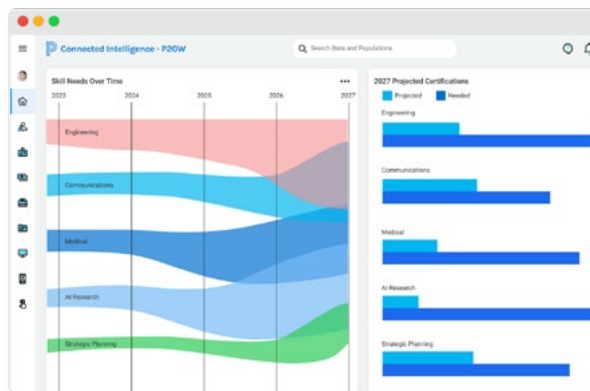

With generative AI, you can design and deliver teacher-approved assessments that best fit the needs of each student within minutes, saving teachers hundreds of hours annually.

Risk Analysis

Quickly identify students who require additional support through predictive analytics and machine learning to increase the chances of students graduating on time.

Connected Intelligence

Centralise your student and staff data to ensure AI readiness and the ability to build and deploy your own AI/ML models.
