

PowerSchool Services Transformation

ACHIEVE YOUR STUDENT PERFORMANCE
GOALS WITH CONSULTING

PowerSchool is here to work with you to **meet your student outcomes goals**. Whether you need some extra help with setup, or you want to roll out new district-wide initiatives, our consultants will **help take your school district to the next level**.

Roll Out New Initiatives with Confidence

We'll help develop a winning strategy, gather needed resources and roles, and develop communications to make your new initiatives efficient and successful. **Consultants work by your side from start to finish** to reach your goals—including rolling out standards-based grading, planning a hosting migration, and more.

Turn Your Strategy into Results

Our team of education experts assesses your situation objectively, aligns your strategy with business goals, and **works with you to build a comprehensive roadmap** to help your school district see results.

Ramp Up and Reach Your Goals Faster with PowerSchool

Keep momentum after implementation with guidance from technical consultants who can help optimize your software and data, adjust to staff transitions, set up workflows, and more.

“ We recently switched to PowerSchool and the **support was amazing**. The project managers were patient and understanding of the uniqueness of our small school division. They go out of their way to find answers to all of our questions.”

CHERYL WHITNEY
Executive Assistant
Tsuut'ina Nation Department of Education

Transformation Consulting

We work with senior district leaders to develop an actionable plan to achieve district-wide strategic goals with milestones and metrics to measure success.

This process includes:

- Developing effective tools and processes to manage and measure change
- Roadmap and milestones to show evidence of technology transformation success
- Strengthened cross-departmental communication and buy-in for technology initiatives

Strategic Consulting

Our team of expert consultants is available to assist with consulting packages designed to help you get the most out of your PowerSchool technology. Strategic consulting services cover data migration, state reporting readiness, standards roll out, advanced data visualization and insights, education transformation, and more.

Options include:

- System architecture reviews
- Communication and help desk planning
- Technical consultation
- Technical support
