

Certifications

**BECOME A CERTIFIED
POWERSCHOOL EXPERT**

Further your professional development by taking PowerSchool Certifications to show that you have mastered various aspects of PowerSchool software.

PowerSchool offers solution-based and role-based certifications for those who wish to train others, become a specialist on a specific aspect of a product, or focus on how to use the software to perform tasks specific to a job role. PowerSchool updates certification offerings continuously for the most recent product versions so that participants can demonstrate their understanding of new features and functionality in PowerSchool software.

Once you complete the required curriculum and pass the online exam, you'll receive an official certificate of completion and a certification badge to put on your email signature or social media profiles. With PowerSchool Certifications, you'll be recognized as an expert.

Bring Expertise to your District

Learn best practice techniques
and remain up to date on
product functionality

Empower Staff to Improve their Professional Development

Help your administrators
and educators stand out
among their peers while
proving their proficiency in
using technical tools

Help your District Save Money

Have certified staff train your
team to improve proficiency
and encourage job satisfaction
and retention

Solution-Based Certifications

Take PowerSchool solution-based certifications to gain in-depth knowledge of how to use PowerSchool product functionality in the most efficient and effective manner possible. Whether taking a train-the-trainer certification or a certification that focuses on particular product functionality, these offerings will provide you with the skill sets you need.

Offerings vary from 3 hours to 10 days based on the complexity of the topic. Most certifications are followed by an online certification exam.

- **PowerSchool SIS: Initial Product Training (IPT)**
- **PowerSchool SIS: PowerTeacher Pro Certification**
- **PowerSchool SIS: Reporting Certification**
- **PowerSchool SIS: Enterprise Reporting Certification**
- **PowerSchool SIS: Database Management Certification**
- **PowerSchool SIS: Advanced Certification**
- **PowerSchool SIS: PowerScheduler Certification**

Role-Based Certifications

Take PowerSchool role-based certifications to learn how to optimize your use of PowerSchool solutions through "day-in-the-life" scenarios and story-driven training. Build professional credibility while enhancing skills to ultimately enable you to more efficiently manage your time and enhance business practices.

The program consists of three half-day remote sessions, followed by an online certification exam.

- **PowerSchool SIS: Front Office Certification**
- **PowerSchool SIS: PowerTeacher Pro - Teacher Certification**
- **PowerSchool SIS: Principal Certification**
- **PowerSchool SIS: School Counselor Certification**
- **PowerSchool SIS: Healthcare Professional Certification**

Recertifications

The PowerSchool Customer Education team encourages ongoing competency and continuing education of PowerSchool products. Instead of taking an exam for recertification, you can now participate in continuing education or product training as specified in our Recertification FAQs on our Certification resource page. Please note that if your certification expires, you must retake the certification exam.
