

# Product Optimization Services

REALIZE THE FULL POTENTIAL OF YOUR POWERSCHOOL SOLUTIONS

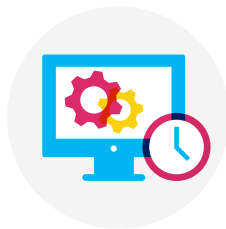

## What are Product Optimization Services?

Product Optimization Services are designed to help school districts who have actively used PowerSchool Products for years, but may not be getting the most out of their software. Our team of consultants can help improve utilization and adoption of core product features and enhancements to increase the efficiency of day-to-day operations. We can help solve many possible challenges such as:

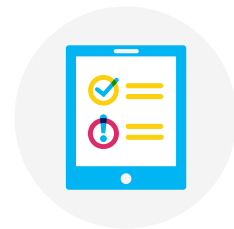

### Staff Turnover

Turnover can be taxing on a school district, and new employee knowledge gaps can occur during transition.

### Outdated Product Knowledge

With regular product enhancements and improved feature functionality, you may not be fully utilizing your system.

### End of Year

Receive the latest best practices to follow when closing out and preparing for the upcoming school year.

## What does the Product Optimization process look like?

### ENGAGE

- Project Kickoff Discovery
- Product Efficiency Health Check
- Recommendations Review of Services

### DELIVER

- Deliver scheduled sessions to deliver recommended and agreed upon Optimization Services

### REFLECT

- Review and Reflect on Project Status

### OPTIMIZE

- Final checkpoint call and recommendations for continuous improvement

## Which level of service is the best fit for my district's needs?

Product Optimization Services provides a complete system audit and develops a plan of consultations to assess, identify, and monitor system setup as well as recommend a plan of improvement. **It is targeted, outcome-driven, and proactive.** Choose the level of service that suits your needs:

<p>Option <b>1</b></p> <p><b>IDENTIFY</b></p>	 <p><b>Review and Health Check</b></p>	<p>PowerSchool consultants inspect your system to pinpoint potential problems and guide you through prioritizing fixes and optimization. An audit health check is prepared with proposed solutions.</p>
<p>Option <b>2</b></p> <p><b>EDUCATE</b></p>	 <p><b>Consulting for Your Staff</b></p>	<p>In addition to the Review and Health Check, PowerSchool consultants will enable your team to fix optimization issues on their own.</p>
<p>Option <b>3</b></p> <p><b>SOLVE</b></p>	 <p><b>White Glove Service</b></p>	<p>PowerSchool consultants will work with your team to review optimization issues and get them fixed.</p>
